

Longshore Safety Tip

May 2006

TRAFFIC CONGESTION IN THE YARD DRIVING A LITTLE TO FAST!

"HAULING" ACROSS THE YARD

THINKING ABOUT LUNCH

TRYING TO GO HOME EARLY

THAT'S WHEN ACCIDENTS HAPPEN

THAT'S WHEN SOMEONE GETS HURT OR KILLED !!!

Experienced people have died when safety shortcuts are taken !!!

DRIVE A LITTLE TOO FAST, "HAUL" THROUGH A STOP SIGN,

OR

JUST LOSE FOCUS ON THE JOB

THAT'S WHEN ACCIDENTS HAPPEN ! THAT'S WHEN SOMEONE GETS HURT !

Stay AWARE ...Stay Safe

TRAFFIC ACCIDENTS HAPPEN WHEN YOU LOSE YOUR SAFETY FOCUS

**All it takes is a moment, a second in time
That's when an accident is going to happen !**

AS A DRIVER YOU NEED TO CONSTANTLY BE AWARE OF:

- . Rail Crossings**
- . Transtainer Lanes**
- . Turning areas**
- . Pedestrian crossings & lanes**
- . Stop Signs**
- . Blind corners**
- . Driving under the hook**
- . Vehicle traffic in the yard**
- . Signalmen**

Driving any piece of equipment safely through a busy yard where 2 to 4 cranes are working, outside tuckers are traveling and numerous other operations are going on, requires you to be alert & drive safely .

**If you are not paying attention, then it becomes a case of playing
Russian Roulette.**

Sooner or later your luck is going to run out!

BANG ! YOUR DEAD !!!!!
